

Thank you for choosing products from Swedish Microwave

i Use the predrilled holes for mounting the device vertically. Any other means of mounting may void the warranty.

! Make sure that the antenna system is grounded to earth to avoid voltage discharge. Power the device with the recommended DC voltage. Too high voltage can damage the device. Connect everything properly before switching on DC voltage. Please consider the voltage drop in a long coaxial cable as too low voltage can affect the functionality.

CAUTION!
Protect against water penetration. The components are designed for operation in temperatures between -40 to +80°C.

*Actual product may differ from illustration

Connector A
N (f) 50 Ω – L-band output to receiver/modem and DC input to LNB
Types: F (f) 75 Ω or SMA (f) 50 Ω

Connector B
N (female) 50 Ω – Optional power input +13 to +28 V DC
Types: F (f) 75 Ω or SMA (f) 50 Ω or pigtail

Connector C
N (f) 50 Ω – L-Band input from LNB and DC + 10 MHz output to LNB
Types: F (f) 75 Ω or SMA (f) 50 Ω

Connector D
SMA (f) – external 10 MHz reference input

i **NOTE!**
Please review the specific product sheet for a detailed schematic on connectors and functions available.

For further details please scan QR-code link to access website complete with **Documentation, Technical Specifications, Manuals and Specific Register Maps.**
